

Module 2 - Project4_dictionaries Assignment - Model Answer

```
<!--index.html-->

<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8" />
    <title>Project4_dictionaries</title>
    <script src="JS/main.js"></script>
  </head>

  <body>
    <p id="Dictionary" onclick="my_Dictionary()">Click Me!</p>
  </body>
</html>

//main.js

function my_Dictionary() {
  var movie = {
    Title: "The Avengers",
    Genre: "Action",
    Director: "Joss Whedon",
    Rating: "PG-13",
  };
  delete movie.Genre; //this removes the Genre KVP from the Dictionary before it is displayed
  document.getElementById("Dictionary").innerHTML = movie.Genre;
}
```
