

Module 6 - jQuery Assignment - Model Answer

```
<!--jQuery.html-->

<!DOCTYPE html>
<html>

<head>
  <!--Link to the Google APT jQuery files -->
  <script src="https://ajax.googleapis.com/ajax/libs/jquery/3.4.0/jquery.min.js"></script>
</head>

<script>
  //Wait until the document is loaded before running any jQuery
  $(document).ready(function () {
    //Selects the HTML element to append content
    $("html").append(
      //content to be added to the HTML element
      "<body>\
        <div id='container'>\
          <div id='inner'>\
            <h1>Basic jQuery</h1>\
            <p id='1'>Paragraph 1</p>\
            <p id='2'>Paragraph 2</p>\
            <p id='3'>Paragraph 3</p>\
          </div>\
        </div>\
      </body>"
    );
    //Using jQuery to add CSS to the HTML element with id = '2'
    $("#2").css({ "color": "red" });
    //Click function to hide the h1 element when the element with
    //id = '3' is clicked
    $("#3").click(function () {
      $("h1").hide();
    });
  });
</script>

</html>
```
